Mini Flashcards Language Games

Illustrations by **HEATHER CLARKE**

ELT advisor: **ANNIE HUGHES**

A unique and highly creative series of full colour Mini Flashcards for teaching and learning English words and phrases. There are 16 different topic-based packs, each with 40 cards with a full colour illustration on one side, and the English word or phrase on the back. There is also the *Vital Verbs* series which contains 3 card packs, each with 36 picture-word cards. With guidance from the teacher, the pupils or students play with the cards in pairs or small groups (or even at home) to learn or revise language in an enjoyable and memorable way. The teacher's books provide ideas and suggestions for a wide variety of activities for all levels and ages.

The Mini Flashcards can be used to support classroom work in a number of different ways. For example, they can:

- be used simply as flashcards, to introduce a new word or phrase in pairwork, groups or whole class activities
- serve as prompts or cue cards in speaking practice activities
- provide the starting point for introducing or recycling related vocabulary in a game or activity
- be used to provide randomised prompts for language practice or assessment
- be used, in their more powerful form, as the basis of an activity or game that the learners can play, engage in, enjoy and be motivated to take part in.

These wonderful resources are:

- **Tried and tested**
- **Fun and motivating for teachers and learners**
- **Language-focused**
- **Flexible (age of learner, language level or focus, activity length)**
- **Perfect for multi-sensory approaches to teaching**
- **Great for independent or team learning**
- **Accompanied by Teacher's Books and dice**
